EXPERIENCE

Comission-Based Static Website Development

📅 09/2022 - Present
- Skilfully developed responsive CSS with and without use of third-party frameworks
- Gained extensive experience working with common JavaScript libraries such as React and ES6
- Developed website layout and user interfaces using standard HTML practice

EDUCATION

Bachelor of Science in Information Technology

Eastern Visayas State University

📅 01/2021 - Present

PROJECTS

Echoed Moments

🔗 https://echoed-moments.web.app

A simple social media web app built with React for frontend and Firebase for backend.

Portfolio Website

🔗 https://jomar-berdejo.vercel.app

This was intentionally built using only pure HTML5, CSS3 and JavaScript to showcase my foundation about these core web technologies. For more projects, visit this website.
